Understanding the Integration Process

Data Exchange Workflow - New Jersey

Upcoming Provider Steps

Contact information

New Jersey and EVV

o Cures Act Mandate in effect as of **January 1st**, 2021

o New Jersey is an **Open Model state**

o New Jersey Home Health providers cohort 1 and 2 must implement EVV by **July 18**, **2022**

o New Jersey Home Health providers cohort 3 must implement EVV by **August 19**, **2022**

o HHAeXchange has been selected **as the State Aggregator** and collect all visit data, regardless of the EVV system being used

Provider Options

Provider Options:

- Option 2– Agencies currently using another 3rd Party EVV Solution: use your existing EVV system and import visit data into HHAeXchange–HHA will route visit data to New Jersey.

Understanding the Integration Process

Preparing Providers for NJ Home Health EVV- Onboarding

- Prepare for EVV Integration with HHAX by:
  - Complete NJ Home Health Survey:
    - New Jersey: Home Health Services Provider Portal Questionnaire (cognitoforms.com)
  - Reviewing the Business Requirements document & data specifications found here:
    - Business Requirements for Third Party EVV Data Aggregation
    - HHAeXchange EVV API Technical Specifications NJ

    - Please note, these documents are also located on the New Jersey Info Center, found here: New Jersey Home Health Information Center – HHAeXchange

- Complete provider attestation found in the BRD:
 - NJ EVV Provider Attestation Form - Publish (cognitoforms.com)

Preparing Providers for NJ Home Health EVV- Onboarding Continued

- Contact HHAX Provider Integration team to begin onboarding process:
  - edisupport@hhaexchange.com
  - Provide following information:
    - Provider legal name
    - Provider Medicaid ID
    - Provider Tax ID
    - Provider NPI
    - Provider primary point of contact (name, email, phone number) for integration efforts with HHAX
    - Provider mailing address
    - Vendor legal name
    - Vendor primary point of contact (name, email, phone number) for integration efforts with HHAX
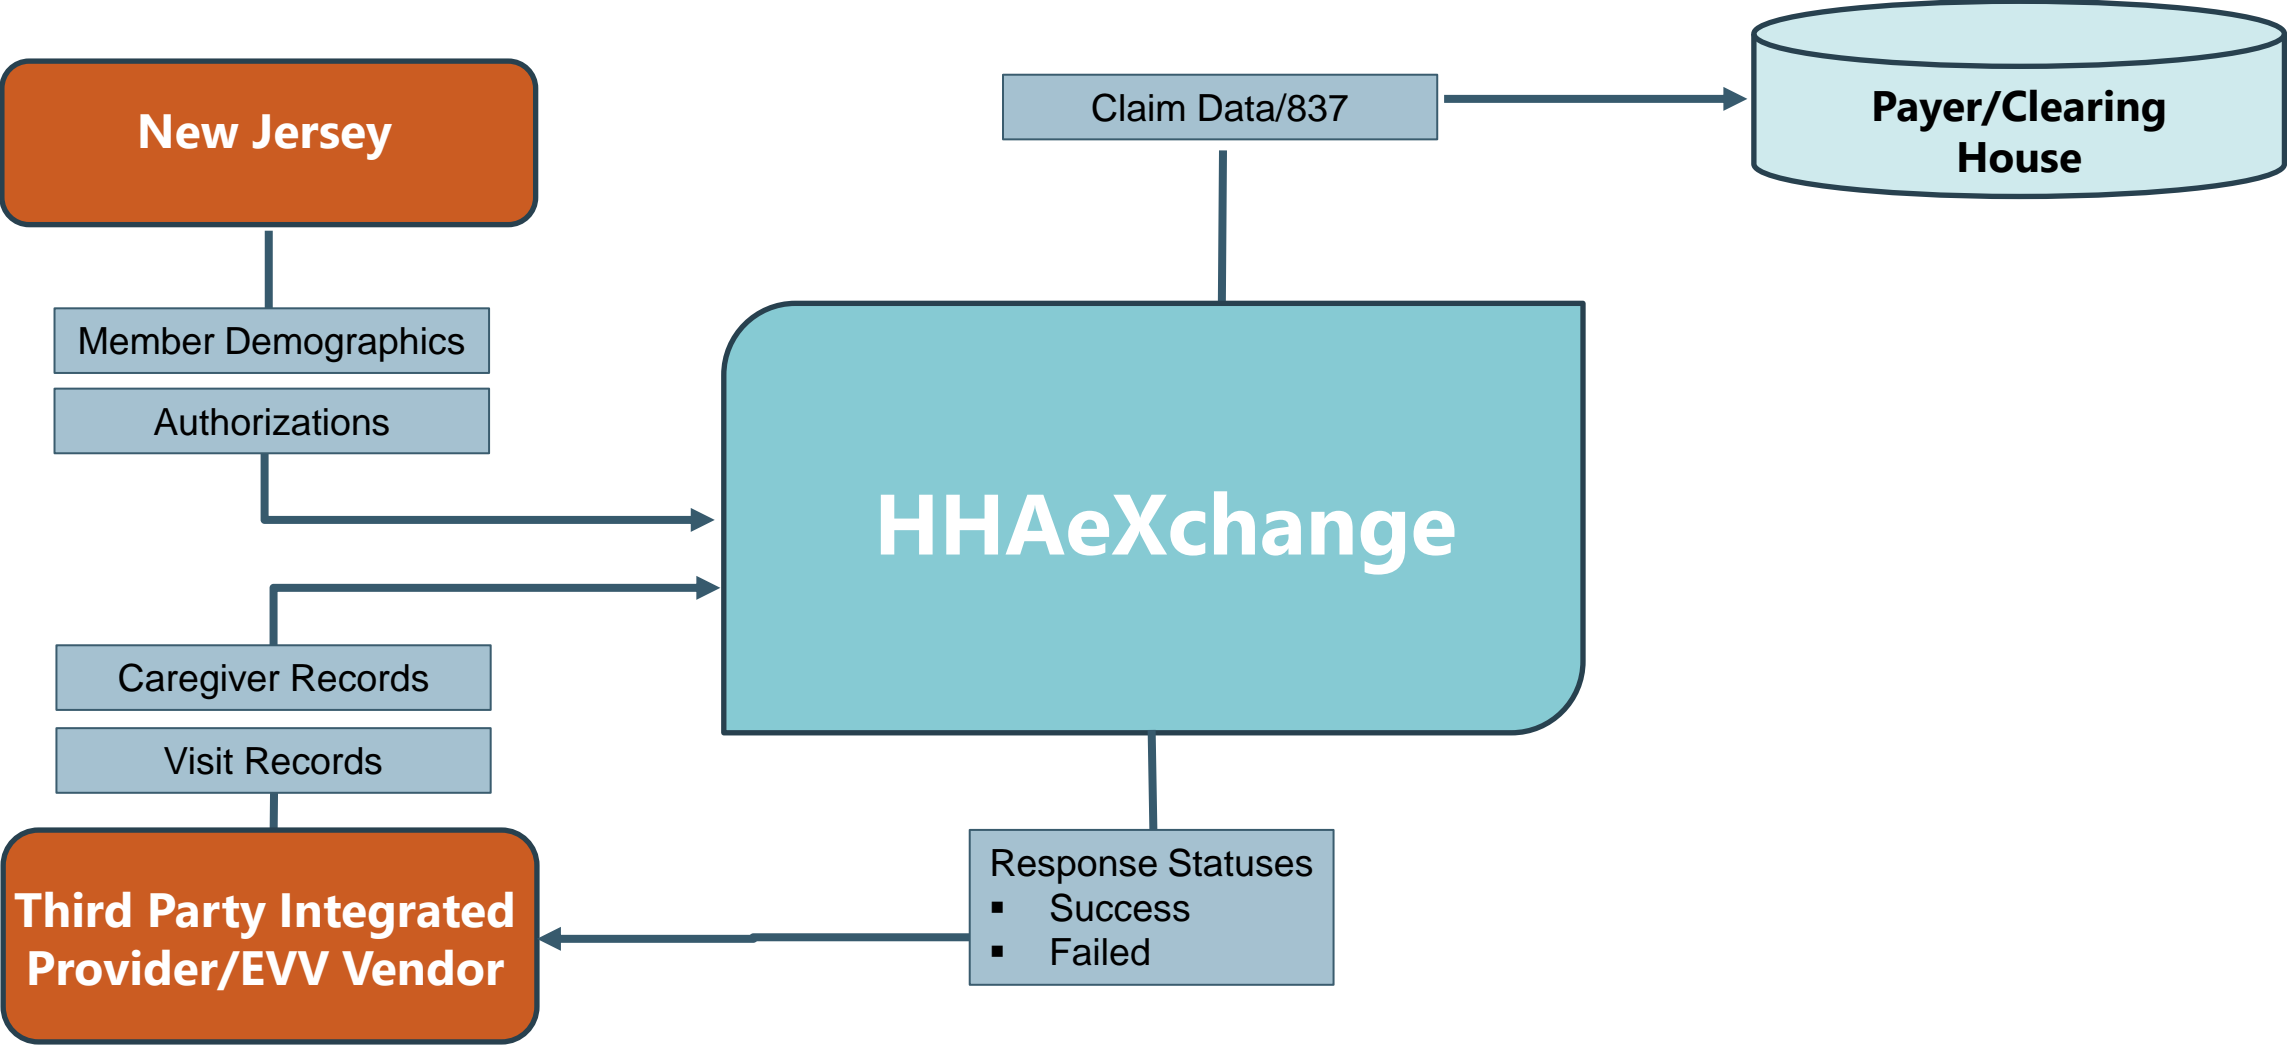

Preparing Providers for Integration - Testing

Integration Workflow

- Prepare for EVV Integration Testing with HHAX by:
  - Review HHAX Testing Process document
    - HHAX will provide this document once access to HHAX environment is confirmed by provider
  - HHAX will provide test member demographic & authorization data to providers to utilize during end-to-end testing, to begin September 9th
  - Message error codes begin on page 47 of the NJ EVV Data Aggregator Specification
    - HHAeXchange EVV API Technical Specifications NJ
  - Providers should contact HHAX Provider Integration team should you need assistance
    - edisupport@hhaexchange.com

Data Transmission Details

Transmission Frequency and Limits

For optimal system performance, HHAX recommends that visit data is sent in near real time. The expectation is that data is sent by the provider or EVV vendor to HHAX as it is added, changed, and/or deleted in the third party EVV system. Data that is unchanged should not be resent to HHAX. HHAX provides transaction statuses on a separate API call that is initiated by the third party EVV system. HHAX allows maximum five (5) calls per second per consumer.

Record Processing Workflow and Endpoints

There are two types of messages provided to HHAX by the third-party provider or EVV vendor: (1) caregiver demographic data and (2) visit information. Note that caregiver data is to be sent to HHAX first as a record is required in HHAX for visit data to load successfully. The provider and/or EVV vendor provides data to HHAX in JSON format only.

- Caregiver records are required to be sent individually to the API
- Visit data can be batched; up to 100 records can be sent per request

Upcoming Provider Steps

Provider Onboarding Steps – EDI Providers

- Welcome Letter: *sent week of 4/11/2022*
- *Welcome Letter Cohort 3- 6/14/2022*
  - Survey Completion
