# What Applies to Me?

As we walk through this presentation, you will see an indicator next to the HHAeXchange logo in the upper right-hand corner of your screen. This indicator will identify if that workflow applies to an HHAX user, an EDI user or both.

## HHAX

- The HHAX indicator applies to providers who will utilize the free HHAeXchange tools.
- An in-depth HHAX specific System User training will be provided separately. Please monitor your emails for training invites.

## EDI

- The EDI indicator applies to providers who utilize a 3rd party EVV system.
- An in-depth EDI specific training will be provided separately. Please monitor your emails for training invites.

# Mission & Purpose

*An End-to-End Ecosystem  
For Better Care*

## MISSION & PURPOSE

# Enable the most effective homecare ecosystem everyday

Empowering **simpler** and **better outcomes** for people who represent some of the most vulnerable and fragile members of our society. **HHaExchange** connects the dots among states, managed care payers, providers, members and caregivers.

# Cures Act Mandated EVV

## The Six Data Elements

Section 12006 of the 21st Century Cures Act requires states to implement an Electronic Visit Verification (EVV) system for Medicaid-funded Personal Care Services (PCS) by January 1, 2019, and for Home Health Care Services (HHCS) by January 1, 2023. Federal legislation delayed penalties for PCS implementation until January 1, 2020, and a Good Faith Exemption extended the deadline to January 1, 2021.

HHAeXchange will be implemented for Florida Community Care on April 3, 2023, to ensure compliance with the Cures Act.

The six data elements  
Required to be collected  
to meet the CURES Act  
EVV Requirement

# HHAEExchange

## The most comprehensive EVV platform for PCS and HHCS

# Provider Landscape

## Enterprise Providers

- You will be able to continue using HHAeXchange, utilizing the system's enhanced Linked Contract functionality

## Existing Free EVV Providers:

- You will be able to continue using your Free HHAeXchange Portal

## Existing EDI Providers:

- EDI providers may continue to work in their own system, but the data will be sent to HHAX via integration

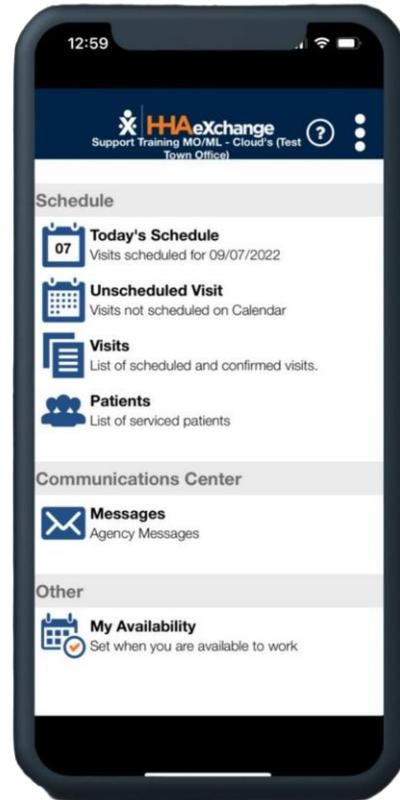

## New Providers:

- Providers who do not have an existing HHAX provider portal have two options for this implementation:
  - **EDI:** Integrate their existing third-party EVV system with an HHAX portal to send confirmed and billed visits to the MCO.
  - **Free EVV:** Use a Free EVV HHAX portal to confirm and bill visits

Payment and 835 file posted to providers

# HH AeXchange System Functions

# Member & Authorization Management

- Members and Authorizations will be sent to your provider portal prior to the go-live date
- Placement Acceptance will be based on your HHAX office configuration
  - Multiple HHAX offices (locations) – Providers must accept and assign placement to the desired office
  - Single HHAX office – Cases will be placed with no additional action required
- Providers will use the authorization imported to HHAX to schedule, confirm, and bill visits for members

# Scheduling

- Visits should be scheduled based on the authorization provided by your Payer
- Providers can schedule a single visit or can utilize the HHAX master week to create a rolling schedule
- Scheduled services that are not performed should be marked as a Missed Visit with the appropriate reason and action taken.

# Visit Confirmation

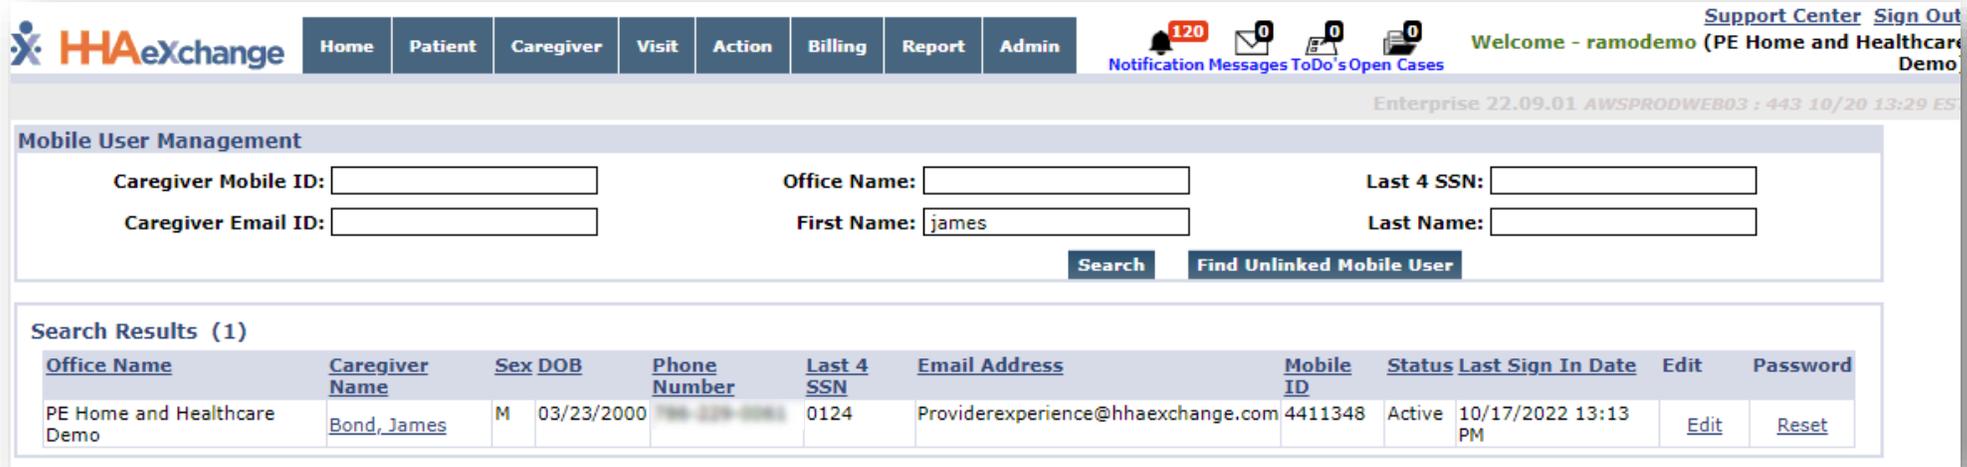

- Visits will be confirmed using the Free HHAX EVV tools or a 3rd-party EVV system
- Manual visit confirmations require a timesheet to be maintained outside of HHAX for auditing purposes
  - In HHAX, providers will enter an edit reason and action taken for why the visit was manually edited

# Billing Process

- Providers will be responsible for resolving all Prebilling and Billing Review issues within HHAeXchange to ensure invoices are compliant and to reduce denials
- HHAX will generate the 837-claim file and send the file to Florida Community Care
  - HHAX will monitor processing responses to ensure successful transmission
- Once the claim is received by Florida Community Care, standard adjudication and payment process will follow
- The current process for receiving an 835 will remain in place
- Rates will be managed by provider in the HHAX system
  - Providers must enter their contractual rates for each service prior to billing

# Mobile User Management

- Mobile User Management allows you to manage your caregivers mobile access for EVV clocking

The screenshot shows the HHAExchange web application interface. At the top, there is a navigation menu with tabs for Home, Patient, Caregiver, Visit, Action, Billing, Report, and Admin. To the right of the menu are notification icons for messages (120), open cases (0), and other alerts. The user is logged in as 'ramodemo' and is viewing the 'Mobile User Management' page. The page contains several input fields for searching users: Caregiver Mobile ID, Caregiver Email ID, Office Name, First Name (pre-filled with 'james'), and Last 4 SSN. There are 'Search' and 'Find Unlinked Mobile User' buttons. Below the search fields is a table with search results for one user.
