MDHHS Welcome and Meeting Overview

- EVV is a federal requirement and implementing will bring Michigan into compliance.
 - The State is currently experiencing federal financial penalties for noncompliance.
- This presentation is intended for Home Help Agencies.
- Phases of Implementation:
 - April 1, 2024 – Medicaid FFS Home Health Care Services
 - **July 1, 2024 – Home Help Program (Personal Care Services)**
 - Home Help Agency providers dates of service on or after July 1, 2024.
 - Home Help Individual providers-no later than September 3, 2024
 - September 3, 2024 – Behavioral Health, MI Health Link, MI Choice and Community Transition Services (Personal Care Services) and Medicaid Managed Care Home Health Care Services.

Home Help General Program Updates

- Home Help payment policy-Postponed until January 2025.
 - NOTE: Training on this change will be provided to agency providers prior to go-live.
- There will be no EVV authorization or billing requirements for agency providers on 7/1/2024. Home Help agencies must continue to submit agency invoices to the assigned adult services worker, monthly, in order to be paid.
- All non-live-in Home Help caregivers are required to do EVV.
 - Live-in caregivers are exempt.
- Home Help/CLS mutual clients will not be required to start EVV until September 3rd, 2024.

HHAeXchange System Terminology

The following is a list of terms used in the HHAeXchange system and training materials. We have compiled a list of MDHHS program terms and their corresponding terms in the HHAeXchange system, as the terms vary across MDHHS programs.

MDHHS Program Term	HHAeXchange System Term
Beneficiary	Member
Client	
Participant	
Recipient	
Consumer	
Caregiver	Service Provider
Attendant	
Aide	
Direct Care Worker	

MDHHS Program Term	HHAeXchange System Term
Program Provider	Provider
FMSA	
Vendor	
Agency	
Managed Care Organization (MCO)	Payer
Plan	
Medicaid Fee for Service (FFS)

4. Training Registration & Learning Management System (LMS)
5. Support Resources

➤ What applies to me?

As we walk through this presentation, you will see an indicator next to the HHAEExchange logo in the upper right-hand corner of your screen. This indicator will identify if that workflow applies to an HHAEExchange user, an EDI user or both.

HHAEExchange

- The HHAEExchange indicator applies to Home Help providers who will be using the state offered HHAEExchange EVV solution

EDI

- The EDI indicator applies to Home Help providers who have an existing EVV solution or plan to use a vendor other than HHAEExchange to submit EVV data to the state of Michigan.

An End-to-End Ecosystem

Purpose and Framework

Enable the most effective homecare ecosystem every day.

Mission

PURPOSE

We are passionate about **helping people** who are aging or have disabilities thrive in their homes and communities through the creation of a homecare ecosystem that **seamlessly connects** states, managed care organizations, providers, caregivers, and clients.

HHAeXchange's Strategic Framework

Cures Act Mandated EVV

Section 12006 of the 21st Century Cures Act requires states to implement an Electronic Visit Verification (EVV) system for Medicaid-funded Personal Care Services (PCS) by January 1, 2019, and for Home Health Care Services (HHCS) by January 1, 2023. Federal legislation delayed penalties for PCS implementation until January 1, 2020, and a Good Faith Exemption extended the deadline to January 1, 2021.

HHAExchange will be implemented for Michigan Home Help Agency Providers for dates of service on or after **July 1, 2024**, to ensure compliance with the Cures Act.

The six data elements required to be collected to meet the CURES Act EVV requirement

Provider Landscape

Your Options

New Agency Providers:

- Providers who do not have an existing HHAeXchange portal have two options for implementation:
 - **EDI:** Integrate their existing third-party EVV system with the HHAeXchange portal to send confirmed and billed visits to MDHHS.
 - **State provided EVV:** Use the State provided EVV HHAeXchange portal to confirm and bill visits.

Existing EDI Providers:

- Providers who have their own HHAX portal which is used to integrate confirmed visit data with their third-party EVV system.
- EDI providers may continue to work in their own system, but the data will be sent to HHAeXchange via integration.

Current HHAeXchange Portal Providers:

- HHAeXchange provider portal users, both free and enterprise access, will be able to continue to use their access to meet the MDHHS requirements.
- Additional linking steps will be required to link to MDHHS.

HHAeXchange Provider Portal Functions and Workflow

Member Management

All Agency Providers will receive the Medicaid member profiles directly from the Home Help contract in HHAeXchange. The process of receiving a member is known as a '**Member Placement**'.

- Member Placements may occur in one of the following ways:
 - **Confirmed Placements:** If your HHAeXchange portal has a single office, Members will appear automatically in your portal.
 - **Pending Placements:** If your HHAeXchange portal has multiple offices configured, your members will appear in a queue for you to review and place within the desired office location.

Once you have received your member your agency can begin reviewing and editing their profile, assigning caregivers, optionally create schedules, managing visits, and more. Please note that changes also need to be made in the appropriate MHDDS Source System.

Caregiver Management

- Agency providers are responsible for adding the individual associated caregivers' data into the HHAEExchange system to create **Caregiver Profiles**.
- The profiles allow for scheduling of your caregivers in HHAEExchange and allows the caregiver to capture (EVV) data when providing care to their members.
- To assist providers with a large census of Caregivers, HHAEExchange has created a **Caregiver Bulk Import tool** to expedite the entry process.

➤ Authorization Management

- There will be no authorizations in HHAeXchange until Jan 1, 2025.
- Additional training and instructions will be provided to users at a later date.
- For further information reference the Michigan EVV website at www.Michigan.gov/EVV.

- The HHAeXchange system allows for Agency providers to optionally create a schedule for their members and providers. Agency providers are not required to create schedules.
- Providers are able to schedule a single visit or utilize the HHAeXchange master week function to create a rolling schedule.
- Scheduled services that are not performed should be marked as a 'Missed Visit' with the appropriate reason and action taken.

Visit Confirmation

- Visits will be confirmed using the HHAEExchange EVV tools or a third-party EVV system.
- In HHAEExchange, if a visit is manually entered, providers will need to enter an edit reason and action taken.
 - For manual clock in and out, caregivers will need to show their provider agency timesheet or proof of the visit.

- EVV data will not be used for billing and reimbursement until January 1, 2025.
- Home Help Agencies must continue to submit monthly invoices in order to get paid.
- Training and requirements for billing will be provided at a later date.

Mobile User Management

- Mobile User Management allows you to manage your caregivers mobile access for EVV clocking in and out.

Electronic Data Interchange Help

Provider Information Center

- If you will be using your own EVV system and not the state offered HHAeXchange system, please review the EDI process documents on the HHAeXchange Michigan Information Center webpage under the EDI process tab.
 - Business Requirements Document
 - Technical Specification Document
- Agency providers will need to complete the attestation form noting your ability to integrate.

The screenshot shows the HHAeXchange website's Michigan Information Center. The header includes the HHAeXchange logo, navigation links for Homecare Software, Technology, Resources, and Company, and a 'Request Your Demo' button. The main content area features a 'Michigan Information Center' title with a 'Provider Onboarding Form' button. A table of contents on the left lists sections: Overview, Michigan Home Health Fee for Service (FFS), Michigan Home Help, Electronic Data Interchange (EDI) Process (highlighted), Frequently Asked Questions, and Contact. The main content area displays the 'Electronic Data Interchange (EDI) Overview (Integrating with a 3rd Party Agency Management System)' section, which includes an overview paragraph, a list of three steps for integration, and a disclaimer. The bottom section is titled 'Important Dates' and includes 'Home Help Go Live'.
