Your participation plays a vital role in the success of the CenterLight Healthcare PACE partnership with HHAeXchange, and we can assure you that HHAeXchange is here to guide you through the process.

This document provides implementation details and expected timelines for your Provider Agency. These steps are the key guidance on all the different required parts that ensure a successful path with the integration of HHAeXchange and CenterLight Healthcare PACE.

## Current Providers working with HHAeXchange

### Using the Enterprise HHAeXchange Provider Portal

For Providers who currently use the HHAeXchange EVV solution in coordination with the CenterLight Healthcare PACE EVV program, HHAeXchange works with your Provider Agency through a series of information sessions and trainings. This series of sessions and trainings are necessary for your Provider Agency to get acclimated with the HHAeXchange platform, in effort to meet the EVV mandate requirements.

The information sessions provide the background and major milestones required while the training assists in understanding the different functionalities available via the HHAeXchange Provider Portal. As we move along these steps, communications are sent to the individuals you provide to us on the CenterLight Healthcare PACE Agency Contact Form linked within this packet.

CenterLight Healthcare PACE has partnered with HHAeXchange to provide a new linked contract to be used moving forward after the go-live date. Providers are expected to start servicing members for CenterLight Healthcare PACE under the new linked contract. The below-listed steps offer further guidance on how a Provider Agency is required to make the switch.
